## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 15-17, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Hengesbach.

Hengesbach shows a liquid spraying apparatus comprising a spray gun having an inlet A, a reservoir C, connector means 1 connecting an outlet from the reservoir to the inlet of the spray gun to permit liquid to be withdrawn from the reservoir via tube B in use, the connector means being releasable as recited via locking nut 16 on both sides of the connector 1, and permitting rotation of the outlet relative to the inlet while the reservoir is attached to the spray gun without compromising the integrity of the connection between the reservoir and the spray gun.

### ***Allowable Subject Matter***

3. Claims 4-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 18-20 are allowed.

### ***Conclusion***

Art Unit: 3752
